

MILO-KNESTOWN CROP CONDITIONS

(By John Glen)

After the long dry spell of over six weeks we finally got a good soaking rain August 15th, and while the thunders, ready with their crew to begin work, did not look good on the rain it certainly did much good to late sown oats, potatoes and other crops. This has been a rather peculiar year, with long dry spells, and still we have a fair average crop. Last fall excessive moisture gave the crops a great setback in the spring and then every time it looked like drying out a good rain came just in the nick of time.

Considerable late rains were sown after the rains in the late part of June, and some people predicted that the late crops would soon be better. However, when it stopped raining after July 1st and the weather turned extremely hot the late sown crops began to look sick. One farmer said he thought he would have to cut his with a red wheeler, but the late rain saved him that method. This year has been a fairly good one for fruit and some varieties will make a good yield.

It was rather dry for strawberries. After the picking the straw dried up on the plants. No doubt those people who have the everbearing kind came out about this year.

Currants, raspberries and other small fruit did well. My transverse orange and cherry plants were almost a failure this year, owing to the very slight frosts. This year proved the wisdom of having many varieties as other crab apple trees are in fruit. So are the standard apple trees. The same is true of the various other kinds of plants. My apple plants are loaded and as the plants ripen the last part of August there is no fear of frost. There is no doubt but that the oats and some plants almost alike, are the best all around plant for Alberta.

N. E. Hansen, professor of horticulture, at Brooks, South Dakota, who has developed the plum tree, the developed these hybrid plants and apples, whereby it is now possible for any farmer, at least in the west, to grow apples. In Alberta, to grow his own fruit provided he has a shelterbelt.

These farm women who desire early seasonal flowers next spring should not forget that tulips, crocuses, iris and peonies should be planted in this fall before freeze up.

It is now time when the absentee land owners usually drift back here to watch the threatening results.

J. J. Begg has returned from California to see the results of his trip.

John L. Ash and wife have returned from Indiana bringing a new State baker's card with them.

The election campaign has been rather quiet in our neck of the woods and no meetings have taken place for a while. The election will be held for granted that Carlisle will be elected anyway.

The potato bugs are getting to be an awful pest and moving in great numbers, but no poison.

Milo is to have both a new church and school. The church building is now going up.

Mrs. Mike Manner, who went to Oregon a short time ago to visit her mother, who was very sick, has returned and reports her mother improving.

Quite a few Oregon boys, relatives of Unshild's and Manner's arrived for the harvest.

Fifty cents will pay for the Call to Order, No. 1, 1916.

DEMONSTRATION OF WHEAT HAULING

M. Bolinger First In

A. E. Martin, proprietor of the Martin Motors, gave a very practical demonstration last Saturday of the capabilities of the Ford one ton truck and incidentally brought in the first wheat to reach the Gleichen elevators of this year's production. Proceeding from his garage with a Ford truck weighing 2500 pounds, Mr. Martin loaded into the truck 4170 pounds of wheat at M. Bolinger's farm east of town.

When loaded the present weather was felt but the truck would not take the load out of the field over the left side of the stubble field to the road. However, this very thing Mr. Martin predicted to do, and did do. Not content with this Mr. Martin then hooked his truck on to a grain wagon weighing 1100 pounds and hauled with 7000 pounds of wheat. Then the one-ton truck pulled into town, slightly less 12,240 pounds, or 12,000 pounds of wheat, or six tons, or about 110 pounds.

This grain was hauled to the Unshild service bureau in Gleichen, where it was graded No. 1 and weighed by Manager N. A. Kilduff, and witnessed by Joe. Boldson, while Jas. Young and other friends, attending the entire proceeding from the time the truck left town, saw it loaded, pulled out of the field, took to the grain wagon, came with it to town and were present at the weighing. This is a record Mr. Martin may well feel proud of and speaks volumes for the Ford one-ton truck for the Martin Motors are the local agents.

The Alberta, British Columbia and Yukon Press Associations met at Victoria Sept. 24 and 25. The prairie branch was organized to stay on the job.

Friday a big grain separator leaving town from the south passed down Crowfoot street, ripping out an electric light wire, and hanging rather low across the street at Fourth Ave. In a half hour Pete Rishung had it down, but before a few car wheels were waited on the gentle slopes.

The members of the Calgary Diabetic Society annually stage a very remarkable show of diabetics in the Pullman Hotel. This year it will be held on Friday afternoon and evening. Representatives of the diabetics in the Pullman Hotel. The show is absolutely from the members of the society who are all diabetics. The show is to demonstrate what can be done in Alberta in the way of growing food crops. Visitors who enjoy this show annually from all over the world state they have never seen anything so good and flowers that can be grown in Alberta.

Mrs. and Miss Flynn returned last week from spending their vacation on the Pacific coast.

C. A. Mills arrived from Pieport Sask, Monday and after spending a day with some friends left this morning again for his home.

The heavy rains have delayed threshing operations and it is doubtful if work will be resumed before the first of next week.

The Gleichen public school opened this morning with Principal Riddell in charge assisted by Miss Flynn, Mrs. Boyd, Miss Kesteven and Miss Kent. It is expected the roll of scholars will be quite large for this term.

Mr. Turner, manager of the Gleichen branch of the Bank of Commerce twenty years ago, was in town Saturday visiting old friends.

WIVES RENTED ON REASONABLE TERMS

At Gleichen Community Hall Next Saturday

A social service bureau with a section devoted exclusively to supplying unattached men with a female escort or companion. Such is the unique idea behind "Watch Your Wife", A Universal Demand coming to the Gleichen Community Hall next Saturday night, 8th. In this unusual domestic comedy drama, Unshild is co-starring Virginia Vail and Pat O'Malley, two great favorites of arena audiences everywhere.

"Watch Your Wife" puts romance on a business basis. In fact there must be no romance or flirtation. If either of these enter into the situation the contract ends. The bureau then calls in its employee who is only rented out from ten to the morning until ten in the evening. In the case of "Watch Your Wife", slight domestic differences disturb an otherwise happy household with Miss Vail and O'Malley playing the roles of wife and husband respectively. The two agree to go their own way. There is a divorce.

The wife falls into the clutches of a mercenary foreigner; the husband accidentally stumbles on the Unshild service bureau with its wife for rent department. He seeks relief from his loneliness by renting a "wife". This situation leads to comic developments that are interesting and laughable. This comedy is a cleverly designed climax.

"Watch Your Wife" is featured by many leading theatres in the "vaudeville" genre won by Miss V. and Helen Lee Werthing, the latter in the role of the rent wife.

ST. ANDREW'S CHURCH

Sunday, Sept. 5th, 10:30 a.m. 14th Sunday after Trinity.

Sunday School 11 a.m. Evening prayer 7:30 p.m. Rev. C. R. Daniels, incumbent. The Rev. C. R. Daniels, incumbent of the Vallen Church of England in Canada has been called by the congregation of St. Andrew's Church, Gleichen, to take charge of this parish. The Rev. Mr. Daniels will be here next Sunday and take charge of all services.

Those who have not already met Mr. Daniels a cordial invitation is extended to them to come and worship with us next Sunday evening at 7:30 p.m. and at the same time meet the new incumbent. It is also hoped that a very popular society will be at St. Andrew's Church next Sunday morning as it is hoped Mr. Daniels will have a special message for the children. To the Rev. Mr. Gilbey, principal of the Old Sun School, who has taken care of the English church, so long the members extend to him their sincere thanks. In Mr. Gilbey, St. Andrew's Church has had a very true friend. Although a very busy man he has given his time unselfishly at all times in the interests of St. Andrew's Church.

Mrs. W. W. Brown held a whist party last night at her home in honor of Mr. R. Smith.

Monday evening and again last night the Gleichen district received as heavy rains can be remembered. Monday evening the rain was very heavy for over an hour, with little wind. Last night the wind started about six o'clock and poured gently until near midnight when the wind started and blew quite a gale until morning.

Mr. and Mrs. John McFwen returned Monday from a short visit to their old home in Chesley, Ontario, and left Gleichen yesterday for St. John's, where they are now residing permanently.

Mrs. A. M. Chalmers has leased the "McQueen house", where she is now prepared to give pianistic lessons.

THE WHEAT POOL AND TRADING IN FUTURES

N. the Chicago Price Current Grain Reporter, the organ of the Chicago Grain Trade, has appeared early in August on a special referring to the delivery of three million bushels of wheat on the 1st of July by the Pool to central sales made on the July option. This Central Selling Agency of the Canadian Grain Trade, at the time it was the article was not worth much in the form of a new item in general. Recently, however, it has appeared as a paid advertisement in the form of a new item in general. It is the form of a new item in general. It is the form of a new item in general. It is the form of a new item in general.

"Watch Your Wife" puts romance on a business basis. In fact there must be no romance or flirtation. If either of these enter into the situation the contract ends. Here and There

It is anticipated that the wool clip in Southern Alberta will reach the \$300,000 pound mark this year. Of this a million and a quarter pounds will be handled through the Canadian Co-operative Wool Growers' Association. The fleece this year are stated to be unusually large.

Canada, in proportion to population, has more golf courses than the United States. With its 444 courses there is no need for the summer tourist to miss their game. Ontario leads with 165, Quebec, 90, Alberta, 60; Saskatchewan, 55; Manitoba, 51; British Columbia, 30; Nova Scotia, 17; New Brunswick, 10; Prince Edward Island, 3.

The recent appointment of the Rt. Hon. H. H. McKeen, former Chancellor of the Exchequer of the British Government, and E. R. Ivimey, a director of the famous Bank of Montreal, to the directorate of the Canadian Pacific Railway, has caused very favorable comment in Canadian and English financial circles.

The annual circus season educational tour carried out under the auspices of the Canadian National Railway, terminated recently at Toronto and Professor J. H. Laird, Dean of Macdonald College, was in charge of the party of over 1,000 students, students and professional men, stated that their entire trip had been an unqualified success.

Over 5,000 tickets were sold recently for the annual picnic and outing of the Angus Shovel and the Red Sea, which proved the most successful ever held. Prominent officials who took part in the day's outing were Mr. Grant Hall, vice-president of the Canadian Pacific Railway; John Burns, work manager at the Angus shovels; J. D. Muir, assistant works manager, and W. Peterson, shop engineer.

Promotions in First Aid handling by C.P.R. in the case of a man whose leg was completely severed while he was at work unloading the S.S. "Montroyal" at Quebec recently undoubtedly saved the man's life, according to the surgeon of the "Montroyal." The First Aid rendered by Sergeant Murphy and Constable Kelly of the Canadian Pacific Railway was reported to have been the means of saving the injured man's life.

A Canadian owned Aythya cow, "Yellow Osborna of Elmshede the 16th," owned by W. C. Wythe, of Manitoba, has displaced the American record milk and butter production for this breed. In a 30-day record trial she produced 22,041 pounds of milk and 909 pounds of butterfat. The previous record production for the same number of days was 18,266 pounds of milk and 729 of butterfat.

Immigration to Canada for the first two months of the fiscal year amounted to 86,112, according to official statement issued by the Department of Immigration for the month of May. This is an increase of 11,791 over the same two months a year ago. Immigration for May, which is the latest month included in the statement, was 15,620 this year, as compared with 15,338 the year. British immigration has increased from 5,659 in May, 1926, to 7,086 in May, 1928. For the same months immigration from the United States has increased from 1,707 in 1926 and from other countries 5,022 to 8,715.

Announcement was made from the headquarters of the Canadian Pacific Railway at Montreal recently of the retirement of W. B. Langdon, general freight traffic manager, from the services of the Company which he has served for forty-two continuous years. Mr. Langdon is regarded as one of the outstanding authorities on rail rates, and although relieved from active official duties at his own request, he will be retained in the service in order that his special knowledge and long experience in traffic matters may be available in emergency without recourse to the Board of Railway Commissioners.

PLANT EVERBEARING STRAWBERRIES NOW

As many in Gleichen are talking of planting everbearing strawberries The call quotes the appended from an article sent out by the Dominion Experimental farm: While everbearing strawberries can hardly be considered a commercial crop for general use, yet such advances have been made with the introduction of newer varieties that are worth a trial in many places.

The fall yield from these varieties is much lower than from the June sorts. This necessitates a higher price if the returns per acre are to be comparable. Some of the best varieties have at the experimental farm, yielded at the rate 2000 to 2500 boxes per acre, the first fall, and then have given a June crop the following season at the rate of 4000 to 5000 boxes, with a second fall crop about equal to the first. To obtain the best results, fall planting seems to be advisable. By planting in September, the plants become well established, and are thus in a position to form a large number of runners for the next fall's crop. As most varieties of everbearers are not rapid runners makers plant them not more than one foot apart in the rows, and if the first fall crop is to be a feature stagger them and put in a double row one foot apart, leaving three and a half feet between centres of double rows. In this way a very large number of young plants can be established by the next autumn. Failing this very early spring planting of well matured and early plants is necessary. As the first buds of these fall bearers are formed shortly after the young plants root, an application of a nitrogenous fertilizer, sometime in early July, has been found very helpful in promoting productiveness in the fall.

It is advisable of course to keep the bloom picked off during the first year until the first 7th July. After that, however, they should be permitted to fruit at will. Results have not been obtained from the removal of the bloom the second spring. At this time, blossom removal is really impracticable owing to the heavy expense involved and the loss of a good June crop.

Of the varieties to be recommended only two have really been tried at this station yet. Champion and Duluth These are improvements over Progressive and Superb under our conditions of soil. The two other most advised varieties Mastodon and Rockhill, have not fruited here yet but the writer has seen the Rockhill in other places where it appeared to be the most promising fall bearing sort yet introduced. Canadians must remember that our falls are not as long as further south, which means that many green berries are frozen on the vines. This necessitates a considerable discount from fall yields reported from southern countries.

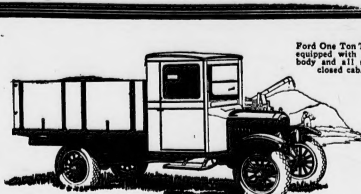

We want to say a good word for the man who meets his small obligations promptly. There are not as plentiful as they should be and the man needs encouraging. Most men will pay but fewer will pay promptly. Almost any firm will testify that, counting the time, postage, booking, and like, it costs all some accounts are worth to collect them, and still the man owing it to them is perfectly responsible in a financial way. It is very often happens that the worst sinner in this particular is the man best able to pay.

We regret to see a disposition on the part of a few of our young people to quit school. Stay at school another year or two, and don't be ashamed of what ought to be your glory, if you want to learn more. Step from the public school to the high school, from high school to the college if you can. Get a business education by all means—you will never learn too much. If you desire to be a mechanic instead of an engineer or farmer, and education will not unfit you to become either. It will always be capital bearing a large income of interest. "When home and lands are gone and spent, The learning is most excellent.

Here is a minister who appreciates the editor. At an editorial convention he offered the following thought: "To save an editor from starvation, take his paper and pay for it promptly. To save him from bankruptcy, advertise in his paper liberally. To save him from despair, send him every item of news of which you can get hold. To save him from profanity, write your correspondence plainly on one side of the sheet and send it in as early as possible. To save him from mistakes, bury him. Dead people are the only ones who never make mistakes.

Read the announcements of your merchants in this issue. Many a dollar has been saved by a careful perusal of merchants ad. in these columns. When a business man advertises in your patronage he not only has a line of goods that "appeals," but there may be some article of articles listed that you desire and that it may be advantageous to buy at this time.

Nearly everyone of us is figuring on having a fine time just ahead when we get all fixed, and this vision is just ahead of us when we fall a little. We in the now and enjoy the present is the work of a philosopher.

Ford One Ton Truck equipped with grain body and all steel closed cab.

Ford Truck Does Work Of Six Teams

When one man with a Ford Truck can haul as much grain to market each day, as six men with six teams, it is not difficult to figure out an enormous saving per bushel in marketing costs.

This is the experience of Simon Henry of Edwin, Manitoba, who says "I believe the Ford truck to be one of the best pieces of farm equipment I have on the place, and the proper means of getting grain to the elevator." A full box of wheat averages from 50 to 55 bushels. The round trip average 22 miles and the Ford truck averages 8 loads a day. "Our largest day's work," says Mr. Henry, "was about 500 bushels from granary to the elevator, one man shovelling his own load on the truck."

The average gasoline consumption, according to Mr. Henry, is a gallon to fourteen miles over heavy roads.

Farmers who have experienced this speedy marketing with Ford trucks would never consider going back to the slower teams which tie up labour for many hours on the road.

We will gladly prove to your satisfaction that the use of Ford equipment will save you time and money.

Opinion Growing That United States Will Keep Aloof From World Court

Washington. — Conflicting opinions are held by competent men in Washington whether the United States reservations to the world court resolution will be accepted by the powers that have adhered to the court. There is, however, a strong and growing opinion that these reservations will not be accepted by all the powers and that the upshot of the matter will be the United States will keep aloof from the court.

In part, this opinion that the reservations will not be accepted by all the powers, is based on quite direct information that some of them are prepared to turn the reservations down. It is said that a number of Republicans would like to see the whole matter sidetracked, being convinced that it is an arrangement that spoils trouble mending for the senate and that it has weakened the Republican party in some localities.

On the other hand the pro-Wilson Democrats are enthusiastic for putting it through.

Confidence In Canada Has Been Strengthened

Prominent British Labor Member Gratified at Dominion's Progress. Vancouver. — "We have been profoundly impressed with what we have seen during our trip across Canada, and our confidence in the potential possibilities of this great country has been strengthened considerably. It was gratifying to the members of all political parties from the Old Country to find that so much progress and development have been possible without impairing in any way the formal unity of the British Commonwealth of Nations."

This was the declaration made by the Right Hon. Arthur Henderson on his arrival in Vancouver with members of the Empire Parliamentary Association, which is enroute to Australia for the association's conference which will be held in September and October.

Mr. Henderson said that he considered it of vital importance that the several dominions should enjoy the greatest measure of freedom yet continue to cooperate with the Old Country in promoting closer political and economic relations in order to give effect to their common interests.

Loss Of Ship Confirmed

Fishing Schooner Goes Down Off Nova Scotia Coast

Halifax, N.S.—Messages reaching the city confirmed fears current during the past fortnight that the La Have schooner Sable A. Kneble had been lost with her entire crew of 22 Nova Scotia fishermen.

The messages came from the department of fisheries patrol cruiser Arctus, which was dispatched to Sable Island from Halifax with orders to identify wreckage believed to be from the missing schooner.

According to information wireless to North Sydney and relayed here, Captain Barlow, port owner of the Sable A. Kneble, who accompanied the Arctus, was able to identify the schooner's entire tank and a flour barrel, which had been washed up on the bar four miles from the northwest light.

Italy Will Abolish Municipal Elections

Fascist Government Expects Notable Economies Will Be Achieved

Rome. — Every city and town and village in Italy will be governed by a representative appointed by the National Fascist Government under the terms of a new decree which was adopted on August 26 by the council of ministers. Elections of all sorts will be abolished and notable economies, it is expected, will be achieved. The new system will mean the revocation of the right of administrative suffrage granted to women by a recent law.

Parachute Lands Plane and Pilot

Los Angeles.—Naval observers declared that complete safety of airplane travel has been assured for the near future as the result of a test made here in which a giant parachute, spreading 274 yards of silk, brought a plane and pilot safely to earth from an altitude of 2,500 feet.

The parachute is the invention of Harry Doucet of the United States navy.

Criticizes The Government

King Says Government Spending Million Dollars a Day Without Authorization

Saint John, N.B.—The Melghen Government was providing itself with spending money at the rate of \$1,000,000 a day by governor-general's warrants, declared Mr. Mackenzie King here at the second meeting of his campaign in the Maritime Provinces. Mr. King drew attention to the fact that the present government was continuing in office and administering the affairs of the country under governor-general's warrants, thereby spending public money without parliamentary supervision or authorization by parliament. Yet parliament had declined to vote Mr. Melghen's Government any supply and had declared by resolution that its members were holding office illegally and that the government had no right to exist.

"The total amount which has been taken from the treasury under governor-general's warrants up to the beginning of the present week—August 25—is over \$51,000,000. In other words, Mr. Melghen's Government has been providing themselves with spending money at the rate of over \$1,000,000 a day, though parliament has expressly declared they are not entitled to a single dollar. There is no parallel in British history or so great usurpation of office and power," said Mr. King.

"A further violation of office and power, was the approval of a \$2,500,000 contract for a Canadian National Railway hotel in Vancouver, awarded without the calling of tenders and during an election."

The Struggle In Mexico

Indefinite Continuation of Stalemate In Religious Situation

Mexico City.—The Episcopate has issued a written statement declaring that the government has sent a circular to all government employees and school teachers requiring a statement as to whether they belong to the League of the Defence of Religious Liberty or the Knights of Columbus, or whether they are loyal to the government and support the government's religious policy.

The Episcopate declares that it does not recognize the government's right "thus to violate religious liberty."

The business men of Mexico, with undignified gloom, are settling down with whatever philosophy and resignation they can muster to what seems to be an indefinite continuation of the stalemate in the religious situation. There is still hope that somehow a solution may be found, but so far as tangible facts are concerned nothing has occurred of late to substantiate that hope. If anything, the government and Episcopate both seem to be adopting a somewhat stiffer attitude.

Police Protecting Miners

British Home Office Will Offset Attempts At Intimidation

London.—Reports of intimidation of miners seeking to return to work in the coal fields, while believed to be exaggerated in many cases, are understood to have caused British home office to make preparations to move considerable bodies of police from London and other affected districts. A large number of extra police at ready have been moved into the Mansfield district. It is the home secretary's determination that the utmost protection be given any of the workers desiring to return to the mines, it was said by a high official at the home office.

A New Civilization

New York.—Jiddu Krishnamurti, the youthful Hindu theosophist, claimed by his followers to be the world medium for the voice of the Godhead, arrived here confident that his visit would result in the rise of a new civilization in this country.

Germany and the League

Berlin.—All of Germany's diplomatic energies are being centred on making sure that Germany will not again be brought face to face with surprise movements on her plan to enter the League of Nations this fall. It is semi-officially stated.

Claimant To Nobility Hurt

Ottawa.—William Legge, 85, who claimed to be the direct descendant of an English lord, was fatally injured when struck by a street car here.

Northern Grown Flowers

Ship Cut Flowers From Alaska to Compete in Exhibition at Toronto

Edmonton.—An unusual express shipment passed through Edmonton recently. The parcel contained 123 pounds of cut flowers grown in Juneau, Alaska, and destined for the Toronto exhibition, where they will be placed on display.

Special attention was paid to the shipment of the blooms. Wrapped in a pasteboard box covered with brown wrapping paper, the flowers rested beneath a bag of cracked ice, which kept them cool. At intervals along the route, a messenger replaced this ice so that the flowers might be fresh on arrival.

Missing Air Pilot Returns

Manitoba Fire Fighter Delayed By Heavy Smoke Clouds

Cormorant Lake, Man.—Missing from the air base here for more than a week, Flight Lieut. Mawdsley of the Royal Canadian Air Force, has returned to Cormorant Lake safely.

Aiding in the fighting of forest fires north of here, Lieut. Mawdsley was forced to make a landing owing to heavy smoke clouds from the fires. He was compelled to wait until the atmosphere cleared before returning to his station here. Lieut. Stevenson, who started out to search for the missing aviator, returned with Lieut. Mawdsley.

TARIFF BOARD MAKE INSPECTION OF STEEL MILLS

Ottawa.—Meetings of the Dominion tariff advisory board have been resumed. Right Hon. George P. Graham, who has just returned from Europe, met in private session with Commissioners Alfred Lambert and D. G. Mackenzie. The two latter reported on the result of their inspection of the steel mills of Canada.

Messrs. Lambert and Mackenzie, accompanied by Dr. A. W. G. Wilson, chief of the mineral resources division of the federal department of mines, spent nearly three weeks investigating conditions surrounding the manufacture of steel and iron in the Dominion. They travelled from South Sea, Marle, Ont., to Sydney, N.S. They visited the properties of the Algoma Steel Corporation at the South, the Dominion Alloy Steel Company, Sarnia, the proposed steel plant at Oshway, near Windsor, Ont., the Steel Company of Canada, Hamilton, and the various mills and plants of the British Empire Steel Corporation at Sydney and New Glasgow, N.S.

They reported that they had been treated with great consideration everywhere and were given the freedom of the plants. No further comment was contained in the statement given out after the meeting.

Some 21 applications in respect of the customs tariff have been placed before the tariff board to date, Mr. Graham stated.

"A few of these have been disposed of," he added, "several are about to be reported on and all are in some stage of investigation by the board and its experts."

House of Lords Leader Here

The most honorable the Marquis of Salisbury and the Marchioness of Salisbury, who are passing through the Dominion enroute to Australia where the former is going as leader of the British delegation of the Empire Parliamentary Association. Lord Salisbury who came over on the Canadian Pacific liner Empress of France and is travelling across Canada on C.P.R.

COARSE GRAIN POOL HAS MADE FINAL PAYMENT

Regina.—Cheques totalling over \$1,000,000 have been placed in the mails by the Saskatchewan Coarse Grains Pool, addressed to its Saskatchewan and Manitoba members, representing the final payment on the 1925-26 crop, the first crop handled since the pool was organized.

The cost of operating the pool for the first year is a shade under half a cent or, to be exact, \$0.009 per bushel, while the carrying charges were \$0.081 per bushel or a little better than three-fourths of a cent. Last year in the operation of the wheat pool the carrying charges were handled by the Central Selling Agency, whereas this year these charges are being taken care of by the provincial pools in both the wheat and coarse grain pools.

The gross amount of the final payment of the coarse grains pool crop for 1925-26 was approximately \$1,200,000 and from this amount has been deducted the charges of one per cent, for commercial reserves and the elevator reserves of one cent a bushel for oats, 1½ cents for barley and rye and three cents for flax.

The acreage signed up to the coarse grains pools in Saskatchewan for the first crop year's operations follows: Oats, 1,747,575 acres; barley, 358,596 acres; flax, 351,384 acres; rye, 47,436 acres. The total membership in the coarse grains pool to date is 36,386 or a little less than 50 per cent of the wheat pool membership in this province.

Win Prizes In England

Canadian Cattle Compete Successfully With Best In Britain

Ottawa.—The federal department of agriculture has been notified that two Canadian steers recently carried off the first prize for the best pair not exceeding 14 hundredweight and first and second prizes for the best butcher's beast on exhibit in the Aldborough and Borough Bridge agricultural show in Great Britain.

The department was advised that these successes were achieved over a very excellent showing of England and Scottish entries. This is considered of more than usual importance as indicating that the store cattle shipped from Canada to Britain and finished off there, can compete with the best bred in that country.

Is Suing Ex-Kaiser

Berlin.—Former Kaiser Wilhelm is being sued in a Dresden court by Catherine Muller, who claims he refused to pay her fee for curing his stammer of stuttering. She says she cured Prince Shotenach Carolath, the second son of the former Kaiser's present wife, of stuttering in four months. The imperial stammer case will be heard in the latter part of September.

Wants Debts Settled

Brussels.—The delay of the French Government in ratifying the London and Washington debt records may have an unfavorable reaction not only on the French franc but also on the Belgian franc, it is feared in financial and governmental circles in Brussels.

Meighen Issues Challenge

Maintains That Present Government Is Legally Constituted

Moore Jaw.—Premier Meighen issued a challenge to Mr. Mackenzie King. He challenged Mr. King to take any of the orders-in-council passed by the Meighen Government to the courts and test their validity on the point whether the government was a government or not.

Mr. Meighen, making his challenge, described the formation of his temporary ministry. "There is nothing I am not prepared to forfeit," Mr. Meighen declared, "if they can get any court in Canada to declare that we are not a legally constituted government."

His government was formed on a temporary basis just to finish the session, Mr. Meighen explained.

Mr. Mackenzie King took the ground—Mr. Meighen proceeded—that because our ministers were not sworn as acting ministers the whole government was illegal.

My first observation is this: "If I were a taxpayer, I would rather have a minister not sworn who did his duty than a sworn minister who did not do this. There are two oaths which a minister with portfolio must take: (1) His oath as a privy councillor, and (2) his oath as a minister."

"There is only one oath an acting minister must take. Every minister in that temporary government took his oath as a privy councillor, but no acting minister ever before took the oath as such in the history of Canada. Nor is there any law or any custom to call upon a man to take an oath as acting minister."

Wrong Meaning Taken

Bishop of London Comments on Criticism By Westminster Gazette

Hepler, Ont.—"They have taken a wrong meaning from my words," the Bishop of London, Right Rev. A. E. Winnipeg-Ingram said in commenting on criticism by The Westminster Gazette on his address in Toronto when he was reported as saying: "Can we expect the same loyalty to British ideals from Galicians, Poles and Gorkows who else, who are populating Canada, and who do not know a word of English?"

He meant, the bishop explained, that if Canada is to be kept British, there must be a majority of English people coming to the Dominion as immigrants. "That was only reasonable," he continued, "I wish you would mention the fact that at Ottawa I paid a special tribute to the patient, loyal and hard-working French pioneers, who helped to lay the foundation of this country."

"The Westminster Gazette is a very radical paper, anyway," the bishop said. "I think they are just trying to make a bit of a splash. I have nothing against the foreigners but I hope that the majority of immigrants will continue to be British."

DOUCET THOUGHT HIS INFORMANT WAS RELIABLE

Halifax.—A. J. Doucet, former Conservative member of parliament for Kent, N.B., told Sir Francis Lemieux at the re-opening of the customs probe here just when he had said from the public platform in regard to the cruise of the Margaret and why he had said it.

He had made his reference to the cruise of the Margaret in two speeches at St. John and Bridge-water when accompanying Rt. Hon. Arthur Meighen, premier, on his Maritime Province tour. He said:

"As far as I can remember, I said in St. John that the Margaret was taken off her course to Three Rivers, where she took Hon. Jacques Bureau and a party of eight on board. That she then called at Quebec and there took Hon. Ernest Lapointe on board," he said. Mr. Doucet informed the commissioner that the vessel had visited the Magdalen Islands and other points, being away for a period of six weeks, during which time the coasts which she should have been patrolling were unprotected.

He had received his information from a person whom he thought should have been in possession of absolutely reliable information on the matter, said Mr. Doucet.

At this point, R. L. Calder, K.C., commissioner counsel intervened, "I may say in extenuation of Mr. Doucet that when I heard the name of this informant, if this same informant had been given to me by the same informant, I would have considered it a proper matter for investigation, and that it is not unlikely that a lay mind, which jumps at conclusions a little more quickly than a legal mind, might be misled," he said.

Further Reduction In Cable Rates Is Predicted By Pacific Cable Board

Prevent Attempt To Rescue Prisoners

Armored Cars Brought Into Action At Dublin Trial

Dublin.—Armored cars were brought into action to prevent an attempt to rescue republican prisoners. The prisoners, Miss Plunkett, daughter of Count Plunkett, and two men, are charged in connection with armed attacks on money lenders in Dublin against whom the republicans are making war.

No one was allowed in the court without police authority. The prisoners treated the court with contempt, and when they were asked to plead their case one proceeded to make an irrelevant speech, as if the proceedings were in the nature of a public meeting.

Ultimately all three were sent to trial to the central criminal court. On applying for bail they were returned to the Mountjoy prison.

Minority Groups Call Meeting At Geneva

Will Deal With Protection of Language and Religion

Geneva.—Apparently dissatisfied with the way the League of Nations handles the problems of minorities, a congress of national groups who form a minority under the flags of the European nations has been convoked at Geneva to treat questions of common interest and seek protection of language, race and religion.

The groups represented are those resident in 13 countries. They include Germans in the Italian Tyrol; Russians, Jews and Germans in Poland; Poles and Danes in Germany; Hungarians, Poles and Germans in Rumania; Poles, Germans and Jews in Czechoslovakia; Germans in Hungary; and Catalanians in Spain. Germans predominate.

Miners and Police Clash

Serious Riots Occur in the Lancashire Coal Fields

Saint Helens, Eng.—Serious disturbances occurred in the Lancashire coal fields when 3,000 angry miners kept the police busy for six hours in the neighborhood of Ashton's Green colliery. Several times mounted and foot police charged the crowds with drawn batons, scattering the riotous miners across the fields for a distance of two miles.

There was a regular battle with stones and missiles of various kinds and several mounted men were struck. Many others were injured, but not seriously. Hundreds of windows of the colliery premises were smashed.

The riots were the outcome of the miners' demand for the withdrawal of the safety men, whom they accuse of taking coal surreptitiously from the pits.

SUNDAY SCHOOL LESSON

SEPTEMBER 5

THE TENT OF MEETING

Golden Text: "Jehovah spake unto Moses face to face, as a man speaketh unto his friend. Exodus 33:11. Lesson: Exodus 33. Devotional Reading: Psalm 51:7.

Explanations and Comments

The Place and Purpose of the Tent of Meeting, verses 7-11.—These verses describe the customary way in which Moses performed his high priestly services during the wilderness life, before the tabernacle was erected. At every new encampment Moses "used to take the tent," a special tent which he called the tent of meeting, and have it set up by itself, far from the camp. Similarly, after the settlement in Canaan, the local sanctuaries were beyond the towns and villages. This tent was especially sacred because in it Moses as priest obtained answers from God for any inquirer who came there with his perplexities. When his duties were over, Moses returned to the camp, but the tent was constantly guarded by his attendant, a young man named Joshua, verse 11.

When Moses started for the tent, the eyes of all the people followed him until he entered it. When he had tarried on Mount Sinai, the people had complained to Aaron that "as for this Moses, the man that brought us up out of the land of Egypt, we know not what is become of him," and the new arrangement was better for the wayward people. When they saw the pillar of cloud, the symbol of the divine presence, descend and hover about the door of the tent, each man sitting and watching at the entrance of his own tent would rise up and worship. And Jehovah spake with Moses.

Victoria.—A further reduction in cable rates will be made by the Pacific Cable Board when the duplication is completed.

This was the announcement by Sir James Allan, G.C.M.G., K.C.B., late high commissioner for New Zealand in England and a member of the Pacific Cable Board, just before sailing for Auckland on the liner Aorangi. In discussing cable board matters Sir James said that he believed the understanding which existed between Canada and other members of the board had been cleared up but was of the opinion that "it was not all Canada's fault that such a misunderstanding existed."

"The cable ship Dominia has been completed and will start soon in laying the second cable from Fanning Island to Hamilton and this work is expected to be completed by October," Sir James explained.

Agree On Disarmament Point

Idea of Germany and France Adopted At Conference

Geneva.—Germany and France joined hands at the preliminary disarmament conference in securing the adoption against the opposition of the British and United States delegations, of a resolution concerning the age of fleets.

The French formula for estimating the age of a fleet was approved by a majority and the German project was adopted, declaring that the age thus obtained constitutes one of the factors to be taken into consideration, although it does not seem possible to apply it as an exact coefficient to the tonnage of the different countries, in order to arrive at an equitable comparison of naval values.

Great Britain and the United States tried to have eliminated the declaration that age, as reckoned by the French formula, constitutes a factor which should be taken into consideration, but the committee refused to agree to this.

South Africa Favors Secession

Not Inconsistent With Oath of Allegiance Says Minister of Mines

Johannesburg, South Africa.—Hon. F. W. Beyers, minister of mines and industries, replying to a correspondent who asked how, in view of his oath of office as a minister of the crown, he could advocate secession, declared that the right of secession had been admitted for the past 80 or 90 years by prominent British ministers and others. If, therefore, followed, he said, that for the very reason that a person was a British subject he was entitled, under the constitution of any dominion, to make propaganda for putting absolute equality with the United Kingdom into practice and even to advocate secession.

The oath of allegiance, Mr. Beyers contended, could not derogate from constitutional rights and was, therefore, not inconsistent with the exercise of such rights.

Historic Exhibits Stolen

Priceless Objects Taken From Theatrical Museum in Milan

Milan.—A sword given by Napoleon to the opera singer Gilda Pasta, and other precious relics have been stolen from the theatrical museum adjoining the Scala Opera House, which contains priceless objects and documents referring to ancient and modern dramatic art. The thief took Napoleon's sword, which was set with gems and a medal which once belonged to the celebrated Italian, Count Vittorio Alfieri, together with a golden crown owned by the famous dancer, Marchionni, and a historic collar and bracelet.

Brandon Egg Pool

Brandon, Man.—The cooperative egg pool in this city established the best record of the stations in Manitoba, according to a statement made here by its manager. The pool will close its season's activities on Sept. 10. To date they have shipped 29 cars out of the Brandon district or something like 297,000 eggs.

Anxious To Migrate

Melbourne. — Advertisements in Great Britain for 40 school teachers to fill positions here' which the acute local shortage has left vacant, had brought a large response, 500 applicants having already been received.

BONDAGE OF DEBT

SOME people are always short of money—always borrowing—always in debt.

Although the debtors' goal has vanished, those in debt are not free. They control neither their time nor their careers. Others control them.

Freedom from debt comes with a growing savings account.

COMING EVENTS

Ad. under Coming Events 25c
Ad. under line, unless otherwise advertised in The Call.

Sept. 3—Hockey Dance in Gleichen Community Hall.

Sept. 4—Meeting of Marquis District Association at Arrowsmith Consolidated School at 2 p.m. Basket Supper at 4 o'clock. E. A. Garland will address the evening meeting at 8 o'clock.

Sept. 5—Labor Day and a Public Holiday.

Sept. 6—The Ladies Paradise at Ramsay Mercantile Ltd.

The Gleichen Public School opens September 1st.

TOWN AND DISTRICT

Today is Alberta's 21st birthday.

Mr. Scratch should start things a little tonight.

W. Brown, Cinesault's popular P. M. spent Sunday in Gleichen with friends.

Miss Vivian Brown left Monday to take charge of her first school. It is located near Carbon.

Won't some person please alert a political argument in these parts—this election is getting monotonous.

The United Church ladies will meet at the home of Mrs. Mohs, on Thursday afternoon, September the 21st at 3 o'clock.

Russell Matthews' article while dressing continues to attract no little attention, not only locally but tourists and others admire its handiwork.

Miss Mary Allan returned Monday to again take charge of the summer school. She spent most of her holidays working on the Pacific Ocean and the miles between here and there.

Mrs. D. G. Wakley and daughter who have been spending the summer months at the home of the former's parents, Mr. and Mrs. John Kofoed, left Monday for their home in Long Beach, California.

A dejected man entered and said to "I want a quart of sugar and of carboic acid." Sorry, said St. "you are into the wrong store. We deal only in hardware, but we have a very choice line of ropes, razors and razors."

Miss Kent returned Monday from a vacation spent at her home at Port, Ontario. She says the cent belt was somewhat juicy this summer, politics quiet and at times she had no one to talk to—still she had a real lovely time.

On Thursday, September 11th, the Ramsay Mercantile Ltd. will have an unusual display of new fall millinery. There are not shipments that have been shown in every store in Alberta, but direct from the Toronto millinery warehouses to our store, and our customers can look on the display as being right up to date. The ladies are advised to keep the date in mind—Thursday, Sept. 11th.

Geo. A. Anthony passed through Gleichen last Thursday with his wife and son and stopped at the Call office long enough to arrange a contract for a year's advertising for the New Imperial Hotel in Calgary of which he recently became proprietor. He was at one time proprietor of the old Gleichen Hotel and very popular with the people of this district. We never visit our friend George at the Imperial without recalling the proverb of a sage who said a thousand years ago, more or less, that "if a man is great, even his dog will wear a proud look." Everybody wants to meet George and will look him up in Calgary, at the Imperial.

It is claimed that the great Shakespeare used only 25,000 words. You perhaps may have noticed that in none of Shakespeare's writings does he make any of his characters even attempt to collect overboard newspaper subscriptions.

ARBWOOD CHURCH OF THE BRETHREN
LEO B. MILLER, Pastor
Sunday school 10:30. Sept. 14th
Morning worship 11:30. Sermon by pastor.
Evening Services, O. W. W. in all departments at 7 p.m. Sermon at 8 p.m.
Everybody welcome.

There is no calamity which right words will not begin to redress.—Emerson.

Without words and the truth of things that is in them, what were we?—Laird Hunt.

In human language all words except proper names, are signs of generalized ideas.

Ideas go booming through the world louder than cannon. Thoughts are mightier than armies.—W. M. Thorton.

By winning words, then, conquer human hearts and make persuasion the work of fest.—Tristide.

Perseus: To win the mind by argument, eloquence, evidence, reflection.

Win: To attain or achieve.

How old are you, Puggy? Why I am eighteen days in England! Why you told me that five years ago. Well I don't one of those people that say one thing one day and another the next.

One of the greatest mistakes advertising ever made was to separate itself from sales. True, the technical personnel, and weapons are generally different, but the aim is the same and is good argument for one to nearly always find fresh fish for the other.

The tears of man over woman's invasion of the barber shop are declared by heavy specialists to be of the tragic crocodile. Because they say, he is slipping around after hours, handling money, wearing heavy and paying unwilling operators more than their women customers. For every ad devised by the beauty culture profession. Men want \$50,000 worth of hair dye last year, with other items in proportion. Men were charged with spending more time and money on their appearance than ever before. They have found beautiful aids a vast help in a business world which puts a premium on good appearance and youth. It is claimed. The barber shop of hair, dyes, shaves and shins, the experts said, is a thing of the past. Tomorrow, it will be a masculine beauty parlor.

All changes for Ads. MUST be at Call office by 12 noon each Monday.

When to advertise—when you need cash—try.

LOST—Brown open bag between Gleichen and the four mile corner, containing ladies apparel and spectacles of special value. For reward apply to Mrs. W. W. Brown

APPLICATION FOR LEASE OF ROAD ALLOWANCE OR SURVEYED HIGHWAY

Notice is hereby given that J. E. Nicholas of Gleichen has made application to the Minister of Public Works, Edmonton, for a lease of the following road allowance surveyed highway, between sections 10, 11 and 22, reg. 22 w. 4th M.

Any protest against the granting of the above mentioned lease must be forwarded to the Minister of Public Works, Edmonton, within thirty days from the date of this notice.

J. E. NICHOLAS, Applicant.
